

Tele**Computing**

– helping customers create business value through IT

How to log on Doorway from Mac

Go to app store and install **Microsoft Remote Desktop**.

Open the application and press **Remote Resources**

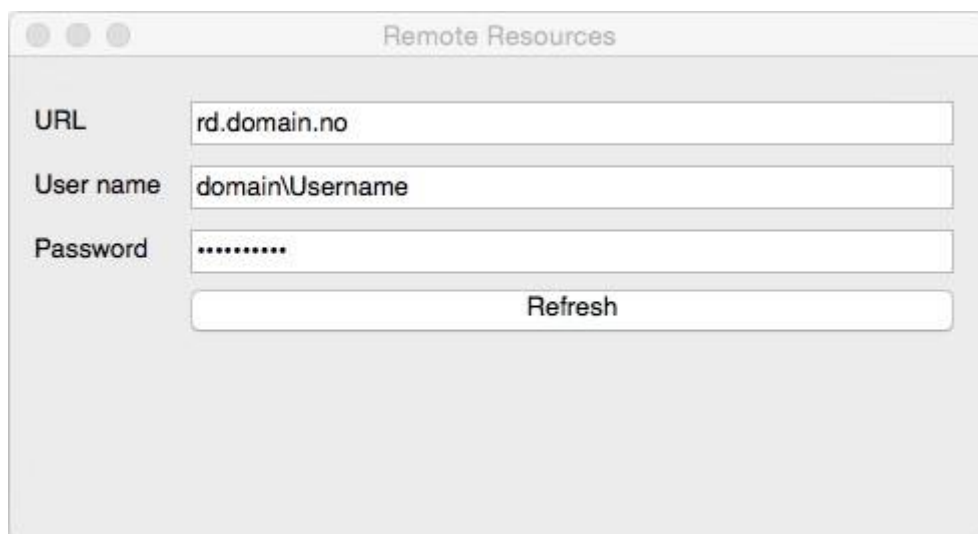

In **URL** fill in **rd.domain.no** – This address should be the same you enter when you log on from web browser.

Under username write: **domain\username**

Write the same password you use on terminal server.

When filled out, press **Refresh**

Close window

Press **the computer** under **Remote Resources** to enter terminal server.
